QUIZ NIGHT

Nat & Josh's Sunday Quiz - Sunday April 6th at 7pm.

As usual, you can expect our regular rounds, such as our 'Stand Up, Sit Down' Bonus Round and Nat's fresh take on a music round, as well as new and quirky rounds designed to make you puzzle and smile.

We always like to see friends, families and partners down, and it's free entry, so what's not to love? And if you're coming solo, we'll be happy to match you to another team.

This remains a free event, created to support our lovely clubhouse during otherwise quiet Sunday evenings. See you there!

REDLAND COMMUNITY DAY

Monday, 5th of May Redland Green Community is coming together as we do every year based around the church hall. There will be tea and cakes, a bouncy castle and face painting and music by DJ Jazz.

Here at the club, we will have some on court activities organised, and Rita , Shelia, and the gang will be returning with the pop-up plant sale in aid of

MEMBERS AREA

Thanks to the Board for allowing this message.

Redland Green Club member, Bill Singleton, is seeking funds to cover expenses for his next trip transporting humanitarian aid to Ukraine. These trips not only take much needed supplies directly to the people who need them, but provide an invaluable morale boost to those Ukrainian people involved - Bill has experienced the impact of this in Ukraine.

This will be Bill's third trip, this time for the Bristol-based charity From Bristol with Love for Ukraine.

This will be the 82nd van load the charity has sent, all funded by the drivers.

Because hired vans are used, insurance restrictions mean that unlike previously, Bill won't enter Ukraine, but will transfer the load at the border.

Bill's target sum is £1,250. All donations to Bill's JustGiving page will be put to this use only - any surplus will go towards another trip, or if enough, will be used to buy a generator to include in the load.

Donations by UK taxpayers qualify for Gift Aid, which increases their value by 25%.

Your help will be greatly appreciated.

SOLAR PANELS

I am thrilled to announce that we now have 158 solar panels on our roof and that we are providing our own electricity during the day and sending to the grid what we do not use.
